

WARNING:

Validate the kit contents with the component list included on page 2 of this sheet before proceeding. **This kit is intended to be used in a modified vehicle.** Please read this sheet thoroughly and be sure that you understand everything explained on it prior to opening any of the enclosed packages, or before attempting to install any of the components. Once this kit has been opened or a component installed, the kit is not returnable.

1. This kit should be used in a **MODIFIED** application only. **NOT** intended as OEM replacement.
2. The fuel pump relay and inertia switch are **NOT** included. We have universal relay kits available that can be used as a fuel pump relay (P/N# 500479).
3. This kit supports the use of aftermarket and stand alone type fuel injection systems. The kit **IS NOT** intended to interface with the factory ECU or other body control modules.
4. This kit supports the use of a high current self-exciting 1-wire alternator or other style internally regulated alternators. An adapter may be necessary in some applications.
5. This kit **IS NOT** set up to connect to the factory gauge cluster. The kit is configured to work with aftermarket gauge packages only.
6. This kit **DOES NOT** include the following connectors from your original harness, as they are obsolete and no longer available. You will need to remove the following, which are illustrated for visual identification on pages 4 and 17, of the instruction packet:
 - FROM THE DASH HARNESS
 - A/C mode selector switch connector (New terminals are on kit harness)
 - A/C illumination lamp connector (New terminals are on kit harness)
 - Blower motor connector (New terminals are on kit harness)
 - Wiper motor connectors (x2) (New terminals are on kit harness)
 - Wiper module connector with 5" section of wires.
 - Fog light switch connector (New terminals are on kit harness)
 - Defrost switch connector (New terminals are on kit harness)
 - Defrost module connector (New terminals are supplied loose piece in the kit for this connector)
 - Interior light dimmer rheostat connector (New terminals are on kit harness)
 - Firewall grommets (x2)
 - FROM THE REAR BODY HARNESS
 - Corner parking lamp socket; uses 194 bulb.

510547 - Classic Update Series Kit 1987-89 Ford Mustang

This kit contains the following components:

<u>Bag</u>	<u>Part Number</u>	<u>Description</u>	<u>Quantity</u>
	510566	Fuse, Relay, and Flasher kit	1
	500919	Practice Terminal Crimping Set	1
G	510548	Dash Harness kit	1
J	510560	Engine Wiring Kit	1
L	510550	Front Light Wiring kit	1
H	510549	Instrument Cluster wiring kit	1
M	510551	Rear Body Wiring kit	1
	92970659	Kit Introduction Instruction Sheet	1
	92970660	Warning Sheet	1

Validate the kit contents with this component list. If there are any discrepancies with incorrect or missing parts, stop your installation and notify the supplier you purchased the kit from before proceeding.
